PROJECTS

ONLINE FLOWER STORE WEBSITE
AUG 2023 – SEP 2023
The Online Flower Store Management System represents a comprehensive and efficient solution designed to revolutionize the way flower shops operate and serve their customers.

BLOOD-BUDDY
JUN 2023 – JUL 2023
Our project Blood- Buddy using Android is developed so that users can view the information of nearby hospitals, blood banks. This project is developed by three perspective i.e. hospital, blood bank and patient/donor. This application reduces the time to a greater extent that is searching for the required blood through blood banks and hospitals.

CLINIC MANAGEMENT SYSTEM
DEC 2022 – FEB 2023
The system has 3 sides which are the administrator, the doctor, and the patient. The system admin will populate the list of the doctors with their specialties and along with the doctor's details and system credentials.
