Year of completion: 2018
Percentage: 76.80%

CARRER OBJECTIVE

I would like to be a part of an organization where I could use and enhance my knowledge and talent for the development of both the organization and myself.

PROJECTS

• BLOOD-BUDDY

Our project Blood- Buddy using Android is developed so that users can view the information of nearby hospitals, blood banks. This project is developed by three perspective i.e. hospital, blood bank and patient/donor. This application reduces the time to a greater extent that is searching for the required blood through blood banks and hospitals. Thus this application provides the required information in less time and also helps in quicker decision making.

- Clinic Management System
  Dec 2022 - Jan 2023

  The system has 3 sides which are the administrator, the doctor, and the patient. The system admin will populate the list of the doctors with their specialties and along with the doctor's details and system credentials.

- **Egg catcher game**
  Jan 2023 - Jan 2023
  Eggs Catcher is a classic game where the goal is to catch as many eggs as possible. In this game, every egg you catch will increase your score and if you miss 3 eggs you will lose the game.
